

## Legal notice for homepage

of InterCard GmbH Kartensysteme,  
Marienstrasse 10, 78054 Villingen-Schwenningen

(Version: 20-12-2012)

### 1 Content of the Website

The author assumes no guarantee for the up-to-datedness, correctness, completeness or quality of the information provided. Liability claims against the author regarding any material or immaterial damage caused by the use or non-use of any information provided, including any kind of information which is incomplete or incorrect, will be rejected in all cases unless it can be proven that the author caused any such damage wilfully or through gross negligence. All offers are not-binding and without obligation. The author explicitly reserves the right to extend, change or partly or completely delete parts of the Web pages or the complete Website including all offers and information without separate announcement.

---

### 2 Referrals and Links

In the case of direct or indirect referrals ("links") to third-party Internet pages outside the scope of responsibility of the author, the author shall not be liable for any of the content unless he has full knowledge of illegal contents and unless it would be technically possible and feasible to prevent visitors of his site from viewing such pages. The author herewith expressly declares that he was not aware of any illegal content on the linked sites at the time the link was established. The author has no influence on the current or future design, content, or the authorship of the linked pages. Consequently, the author expressly accepts no responsibility for any content of the linked pages that was changed after the link was established. This proviso is valid for all links and referrals set within the own Internet offer, as well as for third-party entries in guest books, discussion forums and mailing lists set up by the author. For illegal, faulty or incomplete contents and in particular for damage arising from the use or non-use of such information, the provider of the linked page shall be exclusively liable and not the party whose link refers to the respective Website.

---

### 3 Copyright and Trademark Law

In all publications the author endeavours to comply with the copyright for graphics, sound documents, video sequences and texts, to use graphics, sound documents, video sequences and texts that he has himself created, and to draw on public-domain graphics, sound documents, video sequences and texts. All trademarks named within the scope of the Website and possibly protected by third party rights are fully subject to the provisions of the respective valid trademark law and the ownership rights of the respective registered owner. It cannot be assumed that trademarks are not protected by third-party rights solely on account of the naming as such. The copyright for published material created by the author himself is solely the property of the author. Any duplication or use of such graphics, sound

documents, video sequences and texts in other electronic or printed publications is not permitted without the explicit consent of the author.

---

#### **4 Privacy Policy**

If the option is provided of entering personal or business data (e-mail addresses, names and addresses), the user's disclosure of this data is expressly on a voluntary basis. The use and payment of all offered services are permitted - if and insofar as technically possible and reasonable - without specification of any personal data or under specification of anonymized data or an alias.

---

#### **5 Legal Validity of this Disclaimer**

This disclaimer is to be regarded as an integral part of the Website from which you were referred to this Web page. If sections or individual terms of this statement do not comply with the valid legal situation, no longer comply with this legal situation, or do not completely comply with this situation, the content or validity of the other parts remain unaffected by this fact.

---

#### **6 Statements that relate to the future contain risks**

The Web pages of InterCard AG Informationssysteme contain various statements that relate to the future development of InterCard AG Informationssysteme and its subsidiaries. These statements are based on both assumptions and estimations. Although we are convinced that these predictive statements are realistic, we cannot guarantee this, since our assumptions include risks and uncertainties that could lead to the actual results differing significantly from the expected results. Reasons for this could, for example, include volatility of the capital markets or fundamental changes in the economic environment, as well as the postponement of projects and deliveries due to customer decisions. Other reasons may also include technical decisions and investments that have to be made because of events for which InterCard is not responsible and over which InterCard has no influence.
